

Mark your Calendar, Schedule a Training Date

What is MACC? (Measurement Analyst Certification Course)

MACC provides measurement personnel with advanced training on how to recognize and solve the most common problems associated with natural gas orifice measurement. The class is offered monthly in a two-day format at our Houston office and provides two continuing education units (CEU) from Texas A&M – Kingsville.

“Knowledge is of two kinds. We know a subject ourselves, or we know where we can find information on it.” Samuel Johnson

Registration Information
